M'CANDLESS ON CUBAN QUESTION

Shows Why Hawaii Must Have Republican Delegate

SPLENDID AUDIENCE AT KAMEHAMEHA PARK

BOY ORATOR PRODUCES RECORD
SHOWING THAT DEMOCRATS MADE THE LEPER BILL

The new Kamehameha Park on the corner of Nuuanu avenue and the Pauoa road was last night used for political purposes for the first time in its history, the Republicans taking advantage of this excellent spot for a meeting. The audience was unique in that it contained a far greater percentage of educated people than political meetings generally do. Many of the residents of Nuuanu avenue turned out and listened with interest to the political talks, many ladies taking advantage of the occasion to get a close view of politics as they are done. Furthermore, the usual crowd of Portuguese and Hawaiians attended in large numbers, making, on the whole, one of the very best meetings of the campaign. Order was preserved without an effort, the only exception being in the case of a drunken man, who arrived from parts unknown as Ella Long was speaking. Long's eloquence so touched the drunken gentleman's heart that he insisted on shaking hands with the speaker then and there, but Captain Hippa, who was interpreting, quickly subdued the bibulous enthusiast.

Booth opened the meeting with a short speech. He recommended the candidacy of Kuhio, who, he said, had done good work, in preference to that of McClanahan, who was absolutely untried. Brown had been tried and all accusations against him had fallen to the ground. W. O. Smith's name on the Loan Bill meant that every item of it would be carried out. If he had been in the Senate, the \$20,000 appropriation for the Pauoa road would never have been stricken out. Link McCandless should be sent back to the Senate. He would find out why many items of the Loan Bill had been stricken out.

L. L. McCandless spoke on the County law, devoted considerable time to the good work done by the Promotion Committee, for which he recommended the appropriation of \$1000 a month, and ended with a comparison of the Republican principle of protection and the Democratic principle of free trade.

"Hawaii is a sugar country almost entirely, you might say," he continued. "You take the protection away from Hawaii, amounting to thirteen million a year, and where would Hawaii be? Take our little rice industry here. It is protected at the rate of \$2 per 100 pounds. You take away that protection and the rice fields will be idle. You can't grow rice here with out that protection. For these reasons we should send a Republican to Congress and not a Democrat. I don't think that the Cuban annexation has much to do with the matter. I don't think we should send a Democrat to a Republican Congress for the purpose of a rebuke. A Republican can better represent in a Republican Congress that Hawaii does not want Cuban annexation than a Democrat could."

Long made a very long speech. Kuhio was received with applause, and immediately plunged into a speech in Hawaiian, telling how McClanahan would not be allowed to speak his oratory ad libitum in Congress, but would be limited by the fact that he would not be able to speak without the permission of the speaker.

Other speakers were A. M. Brown, D. Kahanokalani Jr., Fred. Waterhouse, Kaleo, W. W. Harris, A. V. Gear, A. D. Castro, S. C. Dwight and W. T. Rawlins.

The Republican meeting at the corner of School and Liliha streets was attended by a fairly big crowd, though not as large as the one at the first Republican meeting held there. For this circumstance the meeting at Kamehameha Park was, however, clearly responsible.

Bernard Kekekio, the Boy Orator, added a new feature to the old campaign stunts by introducing the Congressional Records showing the section which made Hawaiian an official language here for ten years, which was the measure, he said, which had caused Kuhio to be accused of attempting to disfranchise the Hawaiians. Kekekio also produced the records showing that the leper bill had been introduced in the Legislature by W. A. Kinney and that C. W. Ashford and L. A. Thurston had voted for it.

Judging trees planted last year.

EXAMINED DOCTOR IN OWN LANGUAGE

Japanese Physician Is Refused Permit To Practice

FOOD COMMISSIONER'S REPORT ON DAIRIES

NOT ENOUGH INSPECTORS ALLOWED BOARD OF HEALTH TO LOOK AFTER MILK IN WAY NEEDED

The refusal of the Board of Medical Examiners to admit Dr. Tsutsumi to practice was the most interesting subject brought up before the Board of Health yesterday. The case is unique on account of the way in which the examination was conducted. The Japanese doctor insisted that he be examined in his own language and his way of conducting the matter was allowed under protest. He selected his own interpreter, who translated the questions to him and the answers were in turn translated to the Board by a Japanese doctor. The result of the examination was so unsatisfactory to the Board that Dr. Tsutsumi's application was refused.

The report of the Food Commission was unusually interesting as it showed a strong effort which is being made to bring the dairies of this city up to a higher standard. In speaking of this President Pinkham stated that he thought it a most important matter and that he had proposed a plan to the legislature whereby a dairy inspection should be appointed and the office made self-supporting by the fee system but that nothing had been done in the matter. He said that with the limited force of inspectors at his service it was impossible to devote as much time to the dairies as was really necessary.

The Food Commissioner's report in full was:

L. E. Pinkham, Esq., President, Board of Health, Honolulu.

Sir:—I herewith submit my report for the month of September, 1906. Milk samples examined 41. Below standard 2. Samples below standard gave on analysis the following figures: M. Abrew: Butter fat, 3.4; total solids, 11.1. M. Pachero, butter fat, 3.2; total solids, 9.7.

M. Pachero, whose milk contained at least 20 per cent of added water, was convicted and fined \$15 in the District Court for selling adulterated milk. The following food was condemned and destroyed as unfit for food: 50 boxes smoked herring, 4 boxes crackers (200 lbs.), 60 packages miscellaneous foods.

A number of samples are on hand for analysis, but on account of inspection work on dairies, only a beginning on these analyses has been made.

A number of complaints have been received respecting sickness caused by drinking milk. Cases have been distributed all over town and for a few days, around the 10th of September, were very serious. Since that outbreak a number of cases have been reported to me, but not in as great number as at first. Whether these cases have resulted from drinking infected milk is not definitely known, as a number of similar cases have occurred where no evidence of milk having been used was obtained. Where milk has been used and sickness resulted, on investigation I found that all the milk was produced by a single dairy. This dairy was inspected by Chief Sanitary Officer Dr. Pratt, Inspectors Myhre and myself and a number of insanitary conditions found, which are being abated.

We have at present no inspection of dairies, or at best only a casual one. On consultation with Dr. Pratt, during your absence, Mr. Myhre, who is familiar with the dairies of Honolulu, was placed under my orders for dairy inspection purposes, and a serious attempt was made to compel dairy men to keep their places reasonably clean. The work is started and I request, if possible, that it may be continued.

Your Food Commissioner is always receiving complaints about milk curdling or heating. This is due to outside contamination and such milk is always considered impure or at least abnormal. Red milk (due to specific bacterial infection) and slimy orropy milk has also occurred in Honolulu. These conditions can be prevented by cleanliness.

About twenty milk dealers have signed their intention to make their dairies sanitary; some others will have to be condemned as location and buildings are unsuitable for the purpose.

Respectfully submitted,

R. A. DUNCAN,

Food Commissioner and Analyst.

The appointment of Dr. Herbert as a member pro tem of the board of examining physicians from Oct. 25 was confirmed.

David Kaui was granted permission to be admitted to the settlement as a kokua to his wife.

President Pinkham reported that the usual electroneering permits for the settlement had been granted.

WOULD ADD NEW LANDS TO FOREST RESERVES

The Board of Agriculture and Forestry, at its meeting held yesterday afternoon, passed resolutions which, if carried out, will add 18,000 acres of forest land to the forest reserves of the Territory. The lands so affected are 14,825 acres in the District of Hana, Island of Maui, lying on the eastern slope of Mt. Haleakala and 3743 acres of government land on Oahu, District of Waianae, on the western slope of the Waianae mountains. The resolutions adopted provide that the lands on Maui shall be known as the Hana Forest Reserve, and those in the Waianae District as the Laohale Forest Reserve.

Mr. Giffard made a report on fire fighting, stating the management of the Kaneohe ranch would pay a third of the expenses of putting out a recent fire in that section, providing the Waimanalo plantation and the Maunawili plantation would each pay a third. Mr. Holloway reported that the County Club would pay the expense of fighting the fire occasioned by the clearing off of the club grounds.

G. P. Wilder and Ralph Hosmer were appointed a committee to decide upon the best exhibit for the bureau to make at the annual exhibition of the Hawaii Poultry Association in December.

Vacancies in the list of fire wardens were filled as follows, subject to the acceptance of the men named:

James Munro, as district forester and fire warden for the west half of the island of Molokai, vice G. C. Munro, resigned.

W. F. Sanborn, district fire warden for Halealea, Kauai, except Wainiha Valley.

C. W. Hudson, district fire warden for Wainiha Valley.

Charles H. Bailey, fire warden for the district from Palolo Valley to Makapu Point, Oahu.

Alexander Crow, superintendent of Entomology, presented his report showing that 13,551 packages of fresh fruit and vegetables had been examined, fumigated and passed.

NORDICA COMING

Madame Nordica will sing in Honolulu some time during the month of June, 1907. W. D. Adams has made the final arrangements with Madame Nordica's manager and if the local public will meet the guarantee that is asked for she will favor us.

The Territorial Messenger Service, Mr. Peter manager, has full charge of the seats. All persons wishing to book seats for this great artist may do so at once by phoning the Messenger Service, Main 361.
